About the Speaker:

Paul Welsford has worked for Flexitallic Ltd for over 10 years, covering disciplines from production engineering, production management, business development in Kazakhstan and applications engineering. Paul is now based in Singapore as the Regional Sales Manager for Japan and Australasia. He provides support to the local industries with regards to sealing

solutions and shares best practice knowledge on joint integrity. With a BEng degree from Loughborough University in Product Design and Manufacture and being an associate member of the IMechE he has supported new product introduction within Flexitallic leading to overall cost savings and improved safety for plants in a variety of industries.
