

Date : 31 March 2021, Wednesday

Time : 10.00am SG/MY/HK time

Duration : 1 hour

Mode : Virtual via Zoom

Fees : Complimentary

Presenter/ Instructor : Chip Eskridge, P.E.

PDU's : Approved/ Qualified for 1 PDU by the Professional Engineers Board Singapore

ASME B31.3 is one of ASME's most requested codes. It serves as a companion to ASME's B31.1 Code on Power Piping as well as to the other codes in ASME's B31 series. Together, they remain essential references for anyone engaged with piping. The B31.3 code is intended for manufacturers, users, constructors, designers, and others concerned with the design, fabrication, assembly, erection, examination, inspection, and testing of piping, plus all potential governing entities.

The session will be delivered by **Mr. Chip Eskridge, a global technical subject-matter-expert who is also the current ASME B31 Committee Chairman**

The presentation will mainly cover the summary of changes for the upcoming new edition of ASME B31.3 Process Piping Code.

Interested individuals (including non-members and industry colleagues) may [click here](#) to register for the event and contact [ericho@asme.org](mailto:ericho@asme.org) for further inquiries.

The ASME B31.3 Process Piping Code 2020 Edition is now available for [pre-order online](#) .
